Re: Campus Product Cutlery Dryer

Dear Paul:

I wanted to give you an update on the CDM12K cutlery polisher that we purchased from your company last summer.

I have to say that I was a little bit skeptical when I heard about the cutlery polisher, but as soon as we tried the machine we started to see a difference. We have seen a large improvement in time consuming cutlery-polishing task.

With the competitive hospitality industry prevailing right now, the cutlery dryer is a fantastic asset to own. Many of our servers and managers using our cutlery polisher are all unanimous; this is the invention that any hotel with restaurant and banquet facility should possess; sanitize, free of water spot cutlery are a few standards that the machine gave us.

I would think that any facility, large or small, would benefit by employing the CDM12K cutlery polisher.

Yours truly,

Francois Bouchard
Chief Steward
The Fairmont Jasper Park Lodge.
